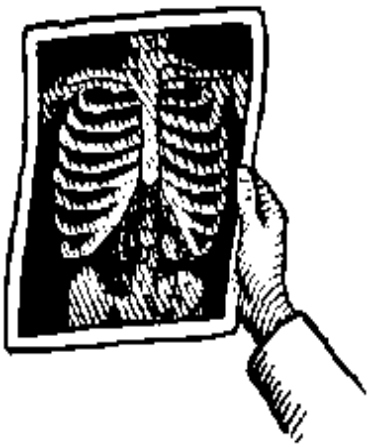
The Agoura High School PFC presents

SUPER SCIENCE SATURDAY



SATURDAY OCTOBER 29, 2011

A Science Conference
for students in grades 3-7

AGOURA HIGH SCHOOL

28545 West Driver Avenue
Agoura Hills, CA 91301

Science...Spooky or FUN? Both...it's all about presentation and experience. Come experience an exciting adventure in science. Explore the natural world, aerodynamics, chemistry, geology, medicine, and technology.

Super Science Saturday is designed for students in grades 3-7. All presentations are hands on experiences run by expert teachers.

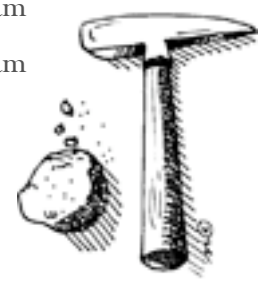
$25 Registration Fee includes all lab fees and materials.

- Return completed registration by Oct 21, 2011
- Space will be limited. First come first served.
- Registration on the day of the conference will be on a space available basis.
- Parents are not allowed in workshops. Parents wishing to remain on the campus may do so only after registering with the Super Science Saturday Security.
- Registration fees are non-refundable as teachers are hired and materials are purchased based on pre-enrollment. Therefore, we cannot refund or give credit on registration fees.
- No confirmations will be sent

SCHEDULE OF EVENTS

Registration 8:15 am - 9am Main Quad

Session 1	9am - 9:50am
Session 2	10am - 10:50am
Session 3	11am - 11:50am



001 Wings of Flight - Scott McCreary

Learn how planes fly. Explore forces involved, then design your own plane and test it out in a challenging obstacle course. Speed, Stunts, or Style...What will you choose??

002 Whoosh! - Don Kobabe

The gases of the universe allows us to breathe, inflate balloons, and create heat. Come join us in an investigation on why hot air balloons fly.

003 Rockets and the Science of Silly Putty - Marc Meinhardt

Students will witness a quick and safe rocket demo involving heat convection. Then, Halloween silly putty creation, students will learn to make their own silly putty.

004 Kitchen Chemistry - Adrianne Alderton

One of the best laboratories in the world can be found right in your own home! Discover weird science projects that you can make at home with common substances found in most kitchens.

005 Ready or Not? - Mary Solberg

Emergencies happen. Will you be ready? Class will cover safety at home, disaster preparedness, pointers on first aid, baby-sitting tips, calling for help, phone tips and more.

006 Making Ice Cream - Alice Overton

Baskin Robbins beware!!! A simple phase change, but it tastes so good. Students will learn how to change milk into yummy ice cream.

007 Chocolate Chip Archeology - Jason Busby

Archeology - using the tools of the trade students will enjoy the rewards of discovery as they learn techniques to verify their treasures.

008 Plastic Milk - Kim Ellis

"Little Miss Muffet" sat on her tuffet eating her curds and whey. Learn what curds and whey are. Explore this simple, but cool phase change using items from your own kitchen.

009 Rocking the Rock Cycle - Ann McCartney

What is really happening within the rock cycle? We will be modeling the rock cycle by breaking, pounding, heating, and melting a surprise substance.

010 Blast Off with Bottle Rockets - Andi Simpson

Create your own bottle rocket with bottles and creative supplies. Try your best to make the rocket that will fly the highest! WARNING: you may get wet!

011 Halloween Fun Time - AHS Link Crew

Agoura High School's Link Crew Students have set up a PARTY FUN ZONE. Take a break from the world of science with mini pumpkin painting, creating sock bats, face painting, creating paper ghosts and pasta skeletons, or just satisfy your sweet tooth by making your own candy apple slice. (The Halloween Fun Time will open during registration for walk in fun and as a course)
