

We are the proud students of Agoura High School. We join together to maintain a learning climate that

1. We shall respect the rights of other students to privacy and their right to keep confidential the materials they create.
2. We take pride in the work we have created, knowing that doing our own work is the greatest reward.
3. We recognize that life is a partnership between individuals, including students and teachers. We are committed to the success of our school.
4. We will not misrepresent examination materials, research assignments, or homework assignments.
5. We will be honest with ourselves. We will not cheat ourselves out of the education and future self-fulfillment.
